

Unofficial Truce In Ireland Now Looked For In London

Four Simultaneous Liberal Rallies Tuesday Night Gave Strength to Solid Slate For the Edmonton Constituency

Four Liberal rallies held simultaneously in various parts of the city Tuesday evening displayed a general tone of optimism and solid confidence, and from all appearance the government candidates' positions were strengthened and new voters added to the slate as a whole. The absence of candidate Mrs. Nellie McClung, who was in Calgary addressing a Liberal meeting, left the four other candidates to speak at the Norwood and McCauley schools, the Unitarian church, South Side, and the Carmen's Association in Oldfellow's hall.

The general atmosphere of progressive legislation in the development of the railway systems, irrigation extension, the development of agriculture (the basic industry), the extension of the educational facilities and "agitation for the return of the natural resources was ably defended at all points, as well as a successful attempt to deify the effort on the part of many factions to establish a system of politics through the present campaign.

It was urged at all the gatherings the necessity of a return to the party system which would have the result of drawing the people drawn from every walk in life, so that the country might be united in the continuance of a strong, stable government, such as had characterized the Stewart administration in the past.

Much was made of the fact that no serious criticism had been levelled at the government in the manifesto of the opposition, and the conclusion was drawn that there had been satisfaction with the administration even in the ranks of the enemy. An absence of opposition at all meetings of the Liberals was a noticeable feature.

DEVELOPMENT OF NORTH AND SOUTH OUTLINED

**Big Calgary Audience
Heard Premier Stewart
and Mrs. Nellie McClung**

CALGARY, July 5.—Mr. Nellie McClung spoke here tonight on behalf of the administration and also the progressive candidates in this city. The premier spoke for nearly two hours, and the audience was a large and attentive audience.

McLennan, dealing with the liquor question, said that the person who did not give the law the support he deserved had no right to criticize. The liquor situation was the most difficult of all and the government was deserving of the best criticism, he said.

The premier declared with pride his record of government, and with respect to the campaign, he said that he had been able to get from Mr. McNaughton the first definite offer of a seat in the cabinet to the settlement of this question, and he hoped for its early settling.

SOUND RECORD HAS BEEN MADE IN TRYING TIME

**Alderman A. R. McLennan Was
Well Received by Norwood
Audience**

The election of the Norwood district of the city gathered in representative numbers at the Liberal rally Tuesday evening at the Norwood assembly hall and listened with interest to Alderman A. R. McLennan, who was received by those present. It was always a pleasure to speak to a Norwood audience, he said, and his hearers, who had in all past days been a quiet audience, were but too willing to point out if it had not been for the government that the capital government would not have been compelled to spend millions and millions of the government's money on the roads toward the west.

With regard to the railways he could not understand Mr. Ewing blaming the government for spending \$10 million on the Canadian Pacific, while the North Country could bring up only millions into the city which would be the capital of the country.

In asking for a general support for the government he said that he had been asked to speak at the rally on July 4th in Edmonton. Mr. McLennan said it was the sound political opinion of the people of this city that he should speak at the rally.

"I know what they were doing when they took me up," he said, "but when Mr. Ewing seems to doubt their wisdom, I am afraid they might think I am a very apt student."

McLennan, who had done his best for the government, was fully satisfied with the present political situation.

Dealing with the present political situation, Mr. Boyle, who was seated with the other candidates, said that it was quite evident in that there was no regular organization of the opposition.

The Stewart administration aimed to serve the public, while the Conservatives had given up the fight in the country, he said, and the U.P.A. the former will not be able to do much more than hold the appointment he had done for him in the past.

The government had a multiplicity of opponents, most of the various candidates in opposition being of a different nature.

There were still different people on the Liberal side, he said, and at the close of his address, he was assured that the way lay between him and the election, and he could depend to do in the future what their opinions of the present were.

McNaughton, who accompanied Mr. McLennan, addressed the men on the aims of the Liberal party and the work of the government, and he said that he had many things in common with the Conservative opposition in their determination to support the public debt contracted for the purpose of paying off the provinces in telephones, trans-

McLennan Expounds Plans Made In Labor's Interests By Stewart Government to Street Car Men

Street car men assembled at their regular meeting Tuesday evening, to mid-night bashing to keep their temperance banner flying.

Worshiping teachers are alive with enthusiasm over the fact that the morning is setting in.

Thousands of people are in the more congested areas of the city.

Under the heat of the sun are reported from a number of points throughout the city.

Thousands of people are scattered around the city, and the heat has reached a maximum.

McNaughton gave it as his opinion that the government would support the city and the through the country.

An Appreciative Audience

After Mr. McLennan had outlined his program of progressive legislation in the interests of all classes, the audience, which was in the best interest of the country, voted the feelings of the meeting, said that they had great admiration for both speakers, and were greatly pleased with the way in which they had done their labor.

Will Not Alter Policy of Taking Land for Arrears of Taxes

"A lawyer here to make that amount in a year thus would say that he would take the land," said Ald. Abbott, chairman of the Finance Committee, while Mr. McNaughton, Mr. McCauley and Capt. Bowes were discussing the bonds purchased by Morris Brody, the local Member of Parliament.

Mr. Abbott said that the bonds were to accept \$10,000 in settlement, when he said that the city was not treating Macs' Cake and Cake account fairly, and that the account was not being paid to the city's affairs at Portland, and that the bonds were to be paid to the bonds purchased by Morris Brody, the local Member of Parliament.

However, the argument of the committee is that Macs' Cake and Cake account is not being treated fairly, and that they released real money to the city, and that the bonds have been canceled since their issue.

The contend that they prevent the bonds being tied up in the course of time, and that the city should not have to pay the amount of the bonds.

The committee said that they prevent the bonds being tied up in the course of time, and that the city should not have to pay the amount of the bonds.

There is no way, according to the committee, to settle the matter except as such, as is the practice, to let the city know that the procedure would be to take it before a judge.

There is no way, according to the committee, to settle the matter except as such, as is the practice, to let the city know that the procedure would be to take it before a judge.

The course that the city is recommended to take is to accept the offer to settle the bonds, and to consider the promise to be considered, and in the meantime Macs' Cake and Cake account is not being treated fairly, and in addition an instalment of \$1,000 will be paid to the city.

The Daily Poem

SUNSET
The glistening evening star,
Across the bay, the sun
Gives up its last glow, as does
The day.

FREIGHT GOING SLOWLY ACROSS SMITH PORTAGE

Conditions on the Smith portage were slightly improved yesterday according to advices received from the north by the Alberta and Arctic Coal Company. The distance is 100 miles from Pincher Creek to Halfway creek, a mill in bad shape, and the company's caterpillar tractors are being used to accomplish the journeys than before. The maximum load time is 4 hours, and the present time is 10 hours per load, and even with this light traffic, the company's freight is still being delayed.

Mr. Norman, foreman of the company's fleet, left for Smith portage on June 24th with a full complement of drivers and a team of horses to assist in the finishing of the new bridge over the Smith portage.

Some of the officers of the company are injured, and the greater number of fatalities were from drowning and automobile accidents.

Chicago reported two persons shot to death by accident, and five killed in automobile accidents while a pants and a hat exploded prematurely led to the deaths.

A young man accidentally shot and killed himself at Minneapolis and at the same time another was killed in a train accident.

Louis reported three deaths and many injuries, mostly caused by heat stroke, and while a pants and a hat exploded prematurely led to the deaths.

A young man accidentally shot and killed himself at Minneapolis and at the same time another was killed in a train accident.

Some districts report light rain and others heavy rain, and some places are still dry.

Others report grandfathers but their ravages have been lessened.

Vancouver on the Kindersley, Saskatchewan, railway, and most of the stations along the line, and the Kindersley station, are closed due to the lack of power.

SMITH WILL MEET

LONDON, July 4—General Jan
Union of South Africa will arrive in
London tomorrow, where he will speak
at the British Empire Conference.

There is no essential disagreement
and all that remains is to determine
the exact phrasing of our action.

Dan Corrigan, vice-chairman
of the Canadian section of the
International Locomotive Engineers
Association, said:
